

ARTRANSFER

**YOUR COLLECTION
INVENTORY**

76% of collectors do not keep an inventory of their collection. And yet, if you want to be properly protected **by your insurance** in the event of theft or damage, and if you want to **manage your collection effectively and know what you own, keeping an inventory of your collection is key.**

Lack of time?

Want to better define the value of the works you own?

Need to manage your assets more effectively?

Want to anticipate your inheritance?

Our team of experts is dedicated to **making an inventory of your collection.**

Whether remotely or at your home, we will draw up a centralised, digital listing of all your works, together with the relevant documents, information and photos.

**ARTTRANSFER,
A SPECIALISED TEAM AT
THE SERVICE OF YOUR
COLLECTION**

OUR OFFER

- **An Excel file** with the complete listing updated with the documentation provided (in a secure Drive link);
- **Notification of attention points** (if any) on your collection identified by our experts;
- **Your collection inventory** free digital access via our collection inventory tool on our Artransfer application. You'll be able to find your works, their details and information, as well as statistical tools to see at a glance how your collection is building up.

This is the basic service offered by Artransfer, either at home or remotely.

A range of other services are also available on request.

See "*My tailor-made inventory*".

All this documentation is authentic and eligible for insurance purposes. The data linked to your inventory is protected and is not distributed to any third party. Artransfer is an independent and secure platform.
